

Project Application

Project name	Christmas Bakery Project
Project number	23-005
Project application	Lumière Kindergarten, Les Cayes Simon
Initial situation	Lumière Kindergarten with about 20 employees and 240 children already has the tradition of baking Christmas cookies with the older children every year. For this purpose, an external Haitian woman is invited to organize the project. Since prices have skyrocketed, it is almost impossible to organize this project. The cookies were packed in small bags and at the Christmas celebration the children could give them away to the up to 300 parents present.
Project goals	This project aims to achieve the following objectives: 1. special teaching activity for the children 2. a small gift for the parents and employees 3. contribution to the structuring of the pre-Christmas season
Delimitations	This should not be extra work for the staff, but rather a thematic contribution to the normal work. Younger children do not take part.
Milestones	Preparation and purchasing to be handled by the guest teacher. She will work for 1-3 days with the children, baking and decorating the cookies.
Dates	The project will be carried out at the end of November and beginning of December, certainly before the Christmas break.
Costs	Material (recipes, sachets, ribbons) 230US\$ (ca. 6210 H\$) Guest teacher (preparation, execution, finalisation) 150 US\$ (ca. 4050 H\$) Total for one schoolyear: 380 US\$
Personnel expenses	1 guest teacher, employees of the kindergarten according to demand
Material resources	The baking ingredients and necessary tools are mostly provided by the guest teacher. The oven is in the kindergarten, the gas is provided by the kindergarten
Projekt organization	
Client	Director Lumière Kindergarten
Project Manager	Director Lumière Kindergarten
Project participants	see above
Distributor	Haiti-Partner e.V., Barb&Friends
Remark	The project will be repeated annually. If there are more funds than needed, they will continue to be used for Lumière Kindergarten.
Enclosures	none
