

Project application

Project Name	Special Help Project
Project Number	23-004
Project Application	From Lumière Kindergarten, Les Cayes-Simon
Initial Situation	Haiti is one of the poorest countries in the world, and due to increasing disasters, gang crime and corruption, the situation has deteriorated extremely. Many people are fleeing Port-Au-Prince for the south. The Lumière Kindergarten also feels these problems drastically. Diseases, traumatized children and hunger are a daily challenge. Since we have been offering meals for children financed by donations, there have been hardly any serious 'hunger diseases', children were healthy! Now there have been death cases and drastic circumstances that are burdening staff and children.
Project Goals	This project aims to achieve the following goals: <ol style="list-style-type: none"> 1. medical help in emergency cases for kindergarten children and possibly their families 2. as far as possible support families with existential problems (help for self-help) 3. regular medical visits in the kindergarten, hopefully also by a psychologist, if possible, otherwise at least additional training for staff members
Delimitations	The project should be limited to the kindergarten (children, their families, staff). No cash is to be passed on, but corresponding bills are to be taken over or aid packages to be provided
Task Description	Staff members in the kindergarten report observations or suggestions to the director. This person, together with one or two other staff members, will decide on the support and carry it out. They will do this showing a receipt and a brief description of the problem and the assistance provided.
Dates	Account statements will be provided after each term.
Costs	That is difficult to say. It is an unending misery! (A small staff training costs about 600 US \$). Total for a school year: from 1200 US \$ to 8000 US \$ ++
Personnel Resources	All staff, a team for the decisions, doctor
Material Resources	Receipts, training materials
Project Organisation	
Employer	Director of Lumière Kindergarten
Project Manager	Director of Lumière Kindergarten
Project Members	All employees, possibly a doctor or a medical specialist
Distributor	Haiti-Partner e.V., Barb&Friends
Remark	The project will be repeated annually (so it can be extended for several years). If there are more funds than needed, they will continue to be used for the Lumière Kindergarten
Enclosures	none
